PLAN

Beautiful new construction ranch home featuring an inviting open-concept design and quality finishes throughout. The vaulted living room, dining area, and kitchen create a bright, spacious atmosphere perfect for both everyday living and entertaining. The thoughtfully designed kitchen offers a center island, pantry, and ample cabinet space, while the dining area provides easy access to the rear deck—ideal for grilling, relaxing, and enjoying the outdoors. The private primary suite features a tray ceiling, walk-in closet, and en-suite bath. A second bedroom, full bathroom, welcoming foyer, and convenient main-floor laundry complete the well-planned main level. The unfinished lower level provides excellent potential for future expansion, offering space for additional bedrooms, a large family room, bathroom, and storage. Build instant equity by finishing the lower level to suit your needs. Additional highlights include a covered front stoop and attached 2-stall garage insulated and finished to the firewall for added comfort and efficiency.
